# Let the River Lead You

It's that time of year when we start planning for another successful sojourn, and the four best words that we can hear are, "How can I help?" For newcomers, a sojourn is an overnight canoe and camping experience where we both educate our citizens on the value of our shared resource, the Swatara Creek, and leave the waterway better than we found it. After all, the Swatara is a source of drinking water for our community. Without the generosity and support of our business community, the Swatara Watershed Association could not afford to complete the sojourn and litter cleanup. Your help is truly appreciated!

If you are willing to help sponsor the 2017 **Swatara Sojourn** on **May 6-7, 2017** please let us know. We will start at Route 645 south of Pine Grove, Schuylkill County, paddle through Swatara State Park, and end the second day at Swatara Watershed Park, East Hanover Township, Lebanon County. As a sponsor, your name will appear on correspondence associated with the Swatara Sojourn—registrations, news releases..., on the SWA web site, on a banner during the sojourn.... No matter the size of your company, we welcome all levels of assistance. To be included on all print materials, please respond by January 31, 2017.
